WELCOME TO A NEW WORLD

## About ABI Interiors

ABI Interiors is dedicated to creating high-end tapware, fixtures and other space-transforming accessories. With a focus on innovation, durability and thoughtful design, our products are made using world-class technology and processes, with up to 25-years warranty.

The Australian family-owned business originated in 2016, after identifying a gap in the market for beautiful, high-quality coloured tapware. Since then, ABI has expanded internationally and offers an extensive range of interior products in a variety of signature finishes, and are recognised today as Australia's premier creators of architectural products.

ABI is driven by a purpose that together we will enrich lives by enriching spaces. We are committed to creating products that extend beyond beautiful design, to solve problems and add value to lives. Guided by our values of Quality, Trust, Innovation, Passion and Responsibility, our vision is to be the world's most loved creators of thoughtfully designed products.

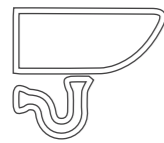

# Our Vanities

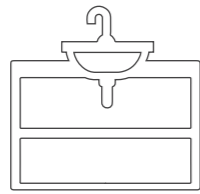

With a range of pleasing contemporary designs, ABI's bathroom vanities will positively enhance your space. You can customise the finish to suit your personal preferences, allowing you more aesthetic options. Tastefully appointed, these bathroom vanities embrace various styles and sizes and are either wall-mounted or freestanding to enable easy integration into your bathroom.

ABI's bathroom vanities range from compact to elongated designs, most with either drawer, shelf or cupboard storage options.

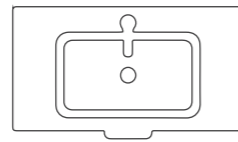

## CONFIGURATION

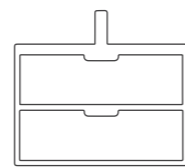

All basins must be centred to the drawer front only as the drawer carcass comes with a centre cut-out to allow for wastage pipes.

At time of purchase you can select how many top drawers with cut-outs are required.

Vanity tops do not include pre-cut holes. This is to be cut by the purchaser or their tradesperson at their discretion.

VJ, Shaker, wall-hung cupboards and drawers require the purchase of cabinetry pulls to open.

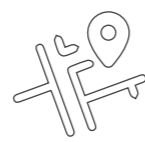

## CONSIDERATIONS

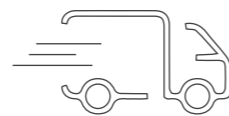

30-day returns are not accepted on vanities as they are custom built.

Vanity orders are excluded from free shipping. Delivery to rural areas may incur an additional shipping fee.

All vanities must be collected within 30 days from purchase date, unless on backorder.

Please allow a minimum of 10 working days for custom cabinet assembly + 3-7 additional working days for shipping.

## Construction & Finishes

Our bathroom vanities are constructed from high-density moisture resistant particle board for durability assurance. Either 2PAC or laminate is bonded to the surface of the cabinetry to complete the finish.

Our bathroom vanities are available in a range of appealing finishes to help define your space. For laminate surfaces, these include pure oak, white ash oak, walnut and black oak finishes. For our 2PAC surfaces, you have the option of either a simple flush white, smart white VJ or refined white Shaker.

Our composite stone is a human-made stone that is lightweight and durable, and available in two colourways, including glacier white and carrara.

Our engineered quartz stone is synthesised by more than 80% quartz crystals with additional resin and other trace elements, ensuring these countertops are scratch resistant. They are available in pure white, carrara and calacatta.

## Basin Positioning

Basin positioning for all ABI vanities is to be centred to the drawer fronts only. For example, if you choose a two-drawer vanity, your basin will be centred to the drawer front and installed on either the left or right side.

If you need advice or guidance, please get in touch, and our Sales team will assist you.

**Please Note: ABI does not provide cut-out holes in your stone for your basins, the positioning refers to the waste allowance in the drawer only. Your onsite installer will need to assist you with this.**
